Education

University of Maryland, College Park

Aug. 2021 – May 2025

B.S. in Computer Science and B.S. in Finance (Double Degree)

GPA: 3.64

Honors College - University Honors Living Learning Program

Relevant Coursework

- Intro Data Science
- Intro Machine Learning
- Intro Databases
- Adv. Data Structures
- Algorithms
- Applied Prob and Stats
- Linear Algebra
- Programming Languages

Technical Skills

Prog. Languages: Advanced: Python | Intermediate: Java, SQL | Basic: JavaScript, C, HTML/CSS, Ruby

Developer Tools: Linux, Windows, Git, Jira, VS Code, Jupyter Notebook, Github, Bitbucket

Technologies/Frameworks: cypress, Microsoft Office, PostgreSQL, scrum, Bloomberg Terminal, Docker

Libraries: pandas, NumPy, Matplotlib, scikit-learn, yfinance, Beautiful Soup

Experience

Robert H. Smith School of Business

January 2024 – Present

Research Assistant, AWS and Cloud Computing

College Park, MD

- Worked under Professor Zeinab Karake, compiling learning resources for the development of a new AWS course
- Developed practice projects for students to gain experience with AWS services, including hosting websites on Amazon S3
- Preparing and working toward obtaining my AWS Cloud Practitioner Certification

Deloitte

June 2024 – July 2024

Risk and Financial Advisory - Technology Intern

McLean, VA

- Tested SOX relevant applications to ensure accuracy and effectiveness of the client's financial statement reporting and internal controls, which included conducting risk evaluations and user sampling for access management verification
- Spearheaded the development of a python automation script that leveraged pandas to streamline the guided risk assessment process, which originally involved manually sifting through over 50 excel sheets
- Filtered and cleaned client datasets by using macros in VBA, helping expedite data processing tasks in Excel

Center for Advanced Transportation Technology

January 2023 – August 2023

Software Quality Assurance Engineer Intern

College Park, MD

- Conducted regression tests on traffic data visualization tools to find errors and track resolution, helping ensure proper functionality of the company's data products and improving the overall user experience
- Independently learned Git, Bitbucket, Cypress, and JavaScript to develop and review automated scripts testing the company's web servers, which expanded coverage of use cases and reduced end-to-end test execution time by 150 seconds
- Designed and documented test cases for various web servers using Cucumber and Jira, enhancing web server reliability, requirement traceability, and ensuring alignment with stakeholder needs/expectations

Projects

Stock Market Analyzer | Python, pandas, Matplotlib, yfinance, scikit-learn, Flask

July 2024 – Present

- Developed a front-end interface allowing users to input stock ticker symbols, and used python's yfinance library to fetch and display real-time stock prices as well as historical data visualized through graphs
- Built a machine learning model predicting S&P500 stock movements with 57% accuracy, by implementing a Random Forest classifier that uses rolling averages and back-testing for improved precision
- Developing a recommendation feature that analyzes company/industry ROIC, WACC, P/E ratio, and growth potential

European Soccer Match Predictor | Python, pandas, BeautifulSoup, scikit-learn

May 2024 – August 2024

- Utilized BeautifulSoup and requests libraries to scrape historical European soccer league match data from fbref.com, cleaned and processed the data using pandas, and exported it to a csv file
- Implemented a Random Forest Classifier on preprocessed data to predict the outcomes of future league matches

Leadership / Extracurricular

Alpha Kappa Psi - Business Professional Fraternity

September 2022 – Present

Member

University of Maryland

- Spearheaded fundraising campaign to raise more than \$1000 over the course of 3 weeks
- Collaborated with team members to conduct market research and financial analysis for consulting case competitions

Consult Your Community (non-profit)

August 2021 – January 2024

Vice President of Finance

University of Maryland

- Managed budget requests and organized fundraising events for 100+ members to secure over \$2000 for the club
- Created a file organization system for vendor invoices, club transactions, and client Statements of Work
